

Economics for Health Cigarette Tax Scorecard

Tunisia Fact Sheet

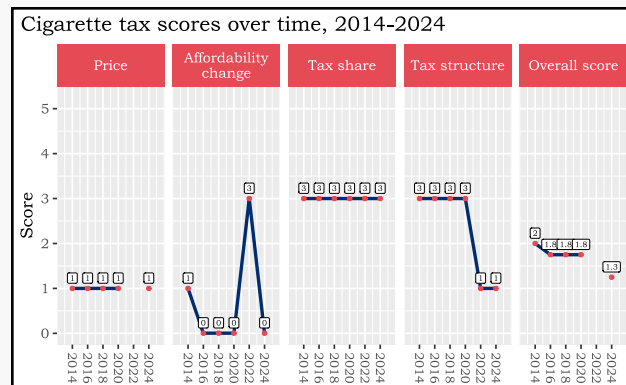

Cigarette tax policies in 2024

The Scorecard assessed four key tax components using a 5-point scale, namely cigarette price, change in cigarette affordability, tax share and tax structure, with the overall score reflecting an average of Tunisia's component scores. The score reflects the current strengths and opportunities in Tunisia to further increase tax revenue and improve health.

Cigarette tax policies over time

Tunisia's overall score decreased between 2014 and 2024. It saw a sharp decline in the affordability change score in 2024.

Comparing Tunisia to other countries

Tunisia overall score is lower than the average score of its region, income group, and the global average. There is ample room for improvement in its cigarette tax system.
